DETAILED ACTION

Claim Rejections - 35 USC § 102

Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Wu. See the previous office action for this rejection.

Response to Arguments

Applicant's arguments filed 5/25/05 have been fully considered but they are not persuasive concerning the above rejection. It is not clear what structure applicant believes is missing from the Wu patent. The curved locus 33 is integral with the lever 3 and this reads on a 'lever directly attached to a rack with a curved locus' as set forth in claim 1. Also, the drive shaft of Wu is coaxially fixed to the driving wheel and pinion gear. (Note that the pinion gear has no proper antecedent basis in claim 1.)

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
